Warning : You are about to purchase a Fund that is not simple and may be difficult to understand.

What is this Product ?

Type

The Fund is a sub-fund of iMGP, a public limited liability company (société anonyme), incorporated as a "société d'investissement à capital variable" under the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifying as a UCITS. The product offered to you is a Share Class of the Fund.

Term

The Fund has no maturity date. It has been established for an unlimited duration and the PRIIP Manufacturer is not entitled to terminate it unilaterally. The Fund and the Share Class may be terminated early and liquidated in those cases set out in the prospectus and the articles of incorporation of the Company.

Objectives

The objective of this Fund is to provide its investors with a long-term appreciation of their capital, principally by means of a broadly diversified portfolio of investments in equity securities and other similar instruments. The Fund may invest flexibly in companies of all market capitalisation, sizes, sectors and countries, including Emerging Markets.

The Fund is managed with a top-down, macro-driven, investment process which will favour some global equity market segments over other global equity market segments at different times. The Sub-Manager seeks to identify areas where, in its opinion, there is a scarcity of capital and/or potentially overlooked investment opportunities.

Security selection will be based on the Sub-Manager's macroeconomic analysis and assessment of a range of proprietary and non-proprietary quantitative indicators to achieve desired market exposures while seeking to manage stock-specific and other observable market risks. These indicators will evolve over time and may include stock markets valuations; interest rates curves; asset class, regional and country correlations; profits cycles analyses; styles as well as sectors rotations; expected betas; estimates of revisions and earnings surprises; investor sentiment or other factors.

The Sub-Manager may sell securities if they exhibit performance that might counteract the desired exposure or to implement a revised allocation based on a modified top-down view. A security may also be sold if the Sub-Manager believes it exhibits unusual volatility or price movement.

The Fund shall not invest more than:

- 30% of its net assets in American Depositary Receipts ("ADRs") or Global Depositary Receipts ("GDRs"). ADRs are US tradable certificates that represent the ownership of shares of a non-US company; GDRs are tradable certificates representing shares of a foreign company which trade on local stock exchanges in investors' countries;

- 50% of its net assets in securities of Emerging Market issuers;

- 10% of its net assets in REITs; and

- 10% of its net assets in units of UCITS and/or other UCIs.

The Fund may indirectly invest up to 10% of its net assets in securities in China via the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect programmes.

The Bloomberg World Large & Mid Cap Net Return Index is used, in the appropriate currency of a given Share Class of the Fund, for comparison only, including for performance comparison. The Fund is actively managed and the Sub-Manager's discretionary powers are not constrained by any index. Although the Sub-Manager may take into consideration the index composition, the Fund may bear little resemblance to the index.

For treasury purposes or in case of unfavourable market conditions, the Fund may also invest up to 20% in term deposits, US treasuries and money market instruments.

The Fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Fund is eligible for the partial tax exemption under GITA; to that purpose, it complies with the specific investment restrictions described in Section 13.

The investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities as per the Taxonomy Regulation.

Profits are not distributed but are accumulated by the Fund.

Recommendation : This Fund may not be appropriate for investors who plan to withdraw their money in less than 5 to 7 years.

Intended retail investor

This Fund is aimed more particularly at investors who wish to benefit from the performance of shares on the different target financial markets, who are capable of evaluating the merits and risks of such an investment, who are able to bear the loss of their entire investment and who have an investment horizon of at least 5 years.

This Share Class may be subscribed by any type of investor. Investors are advised to invest only a part of their assets in such a Fund.

Practical information

Depository: CACEIS Bank, Luxembourg Branch

This Fund is a sub-fund of an umbrella fund (the Company). This document describes the Fund and the share class stated above, while the Prospectus and periodic reports are prepared for the Company. The assets and liabilities of each sub-fund are segregated by law. The assets of the Fund cannot be used to meet the liabilities of another sub-fund.

Switches: You may request to switch from this Fund to another sub-fund of the Company or from this Share Class to another share class of the Fund, subject to conditions. Charges may apply. Please refer to the Prospectus and/or contact the Management Company or your distributor for further information.

Further information about the Fund, the Prospectus, latest annual report, subsequent half-yearly report, as well as other practical information, incl. where to find the latest prices of shares and information on other share classes marketed in your country, can be obtained from the Management Company iM Global Partner Asset Management S.A., 10-12 Boulevard Franklin D. Roosevelt, L-2450 Luxembourg / client_services@imgp.com or from the local representative or distributor. The Prospectus and periodic reports can be obtained in several languages, free of charge.

What are the risks and what could I get in return ?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

Lower risk Higher risk

The summary risk indicator assumes you keep the Fund until maturity end of the recommended holding period (5 years). The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Fund compared to other funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

The Fund has been classified as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions are unlikely to impact the Fund's capacity to pay you. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Operational risk: Human or technical issues or errors during the processing of the transactions and/or the calculation of the NAV of the Fund may result in losses.

Liquidity risk: selling securities in low volume markets may imply a negative impact on the valuation which result in losses.

Financial Derivatives risk: Derivative transactions generate leverage which may emphasize losses whether the strategy (such as hedging, exposure, efficient portfolio management) does not react as expected under certain market conditions.

Counterparty risk: When a counterparty does not respect its obligation related to contracts such as term deposits or over-the-counter derivatives losses may occur.

Emerging Markets risk: Emerging markets investments valuation are more sensitive to risks not linked with the investment itself; such as among others, instability in the political, fiscal and legal environments, but also fraud. Unintended loss may occur due to such factors.

For further information about the risks associated to this Fund, please see the full prospectus, available at the head office of the SICAV.

This Fund does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable, scenarios presented represent examples using the best and worst performances, as well as the average performance of the Fund and/or the appropriate benchmark indicator over the last 10 years.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if iM Global Partner Asset Management S.A. is unable to pay out ?

The position of the Management Company should not impact the payment for the redemption of shares in the Fund. The Depositary of the Fund is responsible for the safekeeping of its assets and it is required by law to segregate the assets of the Fund from its own assets. There is a potential default risk if the assets held with the Depositary (or with a third party to whom their custody has been delegated) are lost. The Depositary is generally liable to the Fund or its investors for such loss unless it is a result of an external event beyond its reasonable control. The Fund is not covered by any investor compensation scheme.

What are the costs ?

The person advising on or selling this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario ;
- USD 10 000 per year is invested

Investment \$ 10,000	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	\$200	\$756
Annual cost impact (*)	2.0%	1.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5.43% before costs and 4.18% after costs.

Composition of Costs

Investment USD 10,000 and annual cost impact if you exit after 1 year

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	\$0
Exit costs	1.00% The impact of the costs of exiting your investment when it matures. This is the maximum you will pay and you could pay less.	\$100
Conversion fees	1.00% If applicable. Please refer to the conversion sections of the prospectus for applicable situations and conditions.	\$100
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	1.00% The impact of the costs that we take each year for managing this Fund. This is an estimate based on actual costs over the last year.	\$100
Transaction costs	None	\$0
Incidental costs taken under specific conditions		
Performance fees and carried interest	None	\$0

These tables show the impact the different costs have on the investment return you might get back at the recommended holding period and the meaning of the different cost categories.

How long should I hold it and can I take the money out early ?

Recommended holding period : 5 years

Given the Fund's investment objective and policy and the target instruments and financial markets in which the Fund invests, the Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period.

Any shareholder is entitled, at any time and without limitation, unless otherwise specified, to have his/her Shares redeemed by the Fund.

Redemption applications must be sent in writing to the Transfer Agent and Registrar. Regardless of your holding period, a maximum redemption fee of 1% may apply. Please refer to the section "What are the costs?" for further details.

The value of the Fund can go down as well as up and you could get back less than you invested.

How can I complain ?
