iM Global Partner Asset Management S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

iMGP is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF) (Registry number: 1923).

Document valid as at: 12.02.2026

What is this Product ?

Type

The Fund is a sub-fund of iMGP, a public limited liability company (société anonyme), incorporated as a "société d'investissement à capital variable" under the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifying as a UCITS. The product offered to you is a Share Class of the Fund.

Term

The Fund has no maturity date. It has been established for an unlimited duration and the PRIIP Manufacturer is not entitled to terminate it unilaterally. The Fund and the Share Class may be terminated early and liquidated in those cases set out in the prospectus and the articles of incorporation of the Company.

Objectives

The objective of this Fund is to provide its investors with long term capital growth, principally by means of investments at all times for at least 75% of the Fund's assets in equities or similar instruments issued by companies based in a member state of the European Monetary Union (EMU). It can also be exposed up to 10% to equities issued by companies having their registered office in other European countries, or having a predominant proportion of their assets or interests in Europe, or operating predominantly in or from this geographical area.

The Fund promotes environmental and social characteristics according to article 8 of the Regulation (EU) 2019/2088 but does not have sustainable investment as its objective.

The Sub-Manager believes that Environmental, Social and Governance (ESG) consideration allows for long-term value creation, allowing to foster a positive change. The Management Company has adopted for this purpose an ESG policy which may be consulted on www.imgp.com. More information on the environmental and/or social characteristics promoted by the Fund may be found on Appendix B to the Prospectus.

The MSCI EMU Net Return Index is used, in the appropriate currency of a given Share Class of the Fund, for comparison only, including for performance comparison. The Fund is actively managed and the Sub-Manager's discretionary powers are not constrained by the index. Although the Sub-Manager may take into consideration the index composition, the Fund may bear little resemblance to the index.

In order to achieve its investment objective, the Fund will base its investments on fundamental research in the selection of individual securities for long positions. The allocation will be reviewed frequently in light of discussions the Sub-Manager may have with the management of companies in which it invests or is considering for investment. The policy of the Fund is to maintain a portfolio of equities across a range of Eurozone countries and sectors, subject to the investment restrictions set out in this Prospectus.

The Fund shall not invest more than:

- 10% of its net assets in units of UCITS and/or other UCIs
- 10% of its net assets in REITs
- 50% of its net assets in shares of small and medium companies.

The Fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Fund is eligible for the PEA.

The Fund is also eligible for the partial tax exemption under GITA; to that purpose, it complies with the specific investment restrictions described in Section 13.

In order to enhance its overall performance, the Fund participates, on a continuous basis unless otherwise decided by the Management Company, in Securities Lending operations for an expected proportion of 0% to 30% of its assets, subject to a maximum of 40%.

Profits are not distributed but are accumulated by the Fund.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money in less than 5 years.

The share class is denominated in another currency than the base currency of the Fund. The exchange rate risk of this class is hedged against the base currency of the Fund. However, full hedging cannot be guaranteed.

Intended retail investor

This Fund is aimed more particularly at investors who wish to benefit from long term capital growth, who are interested in investments with predominant proportion of their assets or interests in Europe, or operating predominantly in or from this geographical area, who are capable of evaluating the merits and risks of such an investment, who are able to bear the loss of their entire investment and who have an investment horizon of at least 5 years.

This Share Class may be subscribed by any type of investor. Investors are advised to invest only a part of their assets in such a Fund.

Practical information

Depositary: CACEIS Bank, Luxembourg Branch

This Fund is a sub-fund of an umbrella fund (the Company). This document describes the Fund and the share class stated above, while the Prospectus and periodic reports are prepared for the Company. The assets and liabilities of each sub-fund are segregated by law. The assets of the Fund cannot be used to meet the liabilities of another sub-fund.

Any shareholder is entitled, at any time and without limitation, unless otherwise specified, to have his/her Shares redeemed by the Fund. Redemption applications must be sent in writing to the Transfer Agent and Registrar. Regardless of your holding period, a maximum redemption fee of 1% may apply. Please refer to the section "What are the costs?" for further details.

Switches: You may request to switch from this Fund to another sub-fund of the Company or from this Share Class to another share class of the Fund, subject to conditions. Charges may apply. Please refer to the Prospectus and/or contact the Management Company or your distributor for further information.

Further information about the Fund, the Prospectus, latest annual report, subsequent half-yearly report, as well as other practical information, incl. where to find the latest prices of shares and information on other share classes marketed in your country, can be obtained from the Management Company iM Global Partner Asset Management S.A., 10-12 Boulevard Franklin D. Roosevelt, L-2450 Luxembourg / client_services@imgp.com or from the local representative or distributor. The Prospectus and periodic reports can be obtained in several languages, free of charge.

What are the risks and what could I get in return ?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

←----->
Lower risk Higher risk

The summary risk indicator assumes you keep the Fund until maturity end of the recommended holding period (5 years).

The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Fund compared to other funds. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

This Fund has been classified as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Fund's capacity to pay you.

The figures do not take into account your personal tax situation, which may also affect how much you get back.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Small Capitalisation : The Fund invests significantly in smaller companies which can carry a higher risk because their prices may be subject to higher market fluctuations than those of larger companies.

Investments in other UCI / UCITS risk : A Fund which invests in other collective investment schemes will not have an active role in the day-to-day management of the collective investment schemes in which it invests. Moreover, a Fund will generally not have the opportunity to evaluate the specific investments made by any underlying collective investment schemes before they are made. Accordingly, the returns of a Fund will primarily depend on the performance of these unrelated underlying fund managers and could be substantially adversely affected by the unfavorable performance.

Risk linked to the use of derivative instruments : The Fund uses derivative instruments, which means financial instruments whose value depends on those of an underlying asset. Therefore, fluctuations in the price of an underlying asset, even if minor, could lead to significant variations in the price of the corresponding derivative instrument. With the use of over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

Derivative for hedging purpose : The use of derivatives for hedging in a rising market may restrict potential gains.

Concentration risk : To the extent that the Product's investments are concentrated in a particular country, market, industry or asset class, the Product may be susceptible to loss due to adverse occurrences affecting that country, market, industry or asset class.

This Fund does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable, scenarios presented represent examples using the best and worst performances, as well as the average performance of the Fund and/or the appropriate benchmark indicator over the last 10 years.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Investment \$ 10,000

The recommended holding period is 5 years.		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	What you might get back after costs	\$4,150	\$3,470
	Average return each year	-58.50%	-19.08%
Unfavourable scenario	What you might get back after costs	\$7,880	\$9,820
	Average return each year	-21.20%	-0.36%
Moderate scenario	What you might get back after costs	\$10,650	\$14,100
	Average return each year	6.50%	7.11%
Favourable scenario	What you might get back after costs	\$13,820	\$19,590
	Average return each year	38.20%	14.40%

This table shows the money you could get back over the recommended holding period of 5 years, under the different scenarios, assuming you invest USD 10,000.

Unfavourable scenario : this scenario occurred for an investment between 09/2017 and 09/2022.

Moderate scenario : this scenario occurred for an investment between 06/2019 and 06/2024.

Favourable scenario : this scenario occurred for an investment between 10/2020 and 10/2025.

What happens if iM Global Partner Asset Management S.A. is unable to pay out ?

The position of the Management Company should not impact the payment for the redemption of shares in the Fund. The Depositary of the Fund is responsible for the safekeeping of its assets and it is required by law to segregate the assets of the Fund from its own assets. There is a potential default risk if the assets held with the Depositary (or with a third party to whom their custody has been delegated) are lost. The Depositary is generally liable to the Fund or its investors for such loss unless it is a result of an external event beyond its reasonable control. The Fund is not covered by any investor compensation scheme.

What are the costs ?

The person advising on or selling this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario ;
- USD 10,000 is invested

Investment \$ 10,000	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	\$633	\$2,374
Annual cost impact (*)	6.3%	3.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 10.50% before costs and 7.11% after costs.

We may share costs with the person selling the Fund to you in order to cover the services they provide to you. If so, this person will inform you of the amount.

Composition of Costs

Investment USD 10,000 and annual cost impact if you exit after 1 year

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	3.00% The impact of the costs you pay when entering your investment. This is the maximum you will pay and you could pay less. These costs are already included in the price you pay.	\$300
Exit costs	1.00% The impact of the costs of exiting your investment when it matures. This is the maximum you will pay and you could pay less.	\$100
Conversion fees	1.00% If applicable. Please refer to the conversion sections of the prospectus for applicable situations and conditions.	\$100
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	2.26% The impact of the costs that we take each year for managing this Fund. This is an estimate based on actual costs over the last year.	\$226
Transaction costs	0.07% The impact of the costs of us buying and selling underlying investments for this Fund. The actual amount will vary depending on how much we buy and sell.	\$7
Incidental costs taken under specific conditions		
Performance fees and carried interest	None	\$0

This table shows the impact the different costs have on the investment return you might get back at the recommended holding period and the meaning of the different cost categories.

How long should I hold it and can I take the money out early ?

Recommended holding period : 5 years

Given the Fund's investment objective and policy and the target instruments and financial markets in which the Fund invests, the Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period.

Any shareholder is entitled, at any time and without limitation, unless otherwise specified, to have his/her Shares redeemed by the Fund.

Redemption applications must be sent in writing to the Transfer Agent and Registrar. Regardless of your holding period, a maximum redemption fee of 1% may apply. Please refer to the section "What are the costs ?" for further details.

The value of the Fund can go down as well as up and you could get back less than you invested.

How can I complain ?

If you have a complaint about the Fund or the conduct of iM Global Partner Asset Management S.A, you may contact us by post mail or by email to client_services@imgp.com or eucompliance@imgp.com. We will handle your request and provide you with a response in due course. Further details about our Complaints Policy are available on www.imgp.com.
