

Key Investor Information Document

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Conservative Select Fund (the "Fund"), Share class : R GBP D HP (LU2709242635) is a sub-fund of iMGP (the "SICAV") managed by iM Global Partner Asset Management S.A. (the "Management Company")

Objectives and investment policy

The objective of this Fund is to provide investors with an absolute return which has limited correlation with the trend of the main stocks or bonds markets indices by investing mainly in UCITS, UCITS eligible exchange traded funds, money market funds and/or other UCIs. The weighting between these instruments will be determined by the Sub-Manager according to its personal assessment of the market trends. The Fund is actively managed with no reference to a benchmark. The Fund may provide exposure across asset classes, mainly to equities and fixed income markets but also to currencies, commodities and money market instruments globally, including Emerging Markets.

The Fund promotes environmental and social characteristics according to article 8 of the Regulation (EU) 2019/2088 ("SFDR") but does not have sustainable investment as its objective.

The Sub-Manager believes that Environmental, Social and Governance (ESG) consideration allows for long-term value creation, allowing to foster a positive change. The Management Company has adopted for this purpose an ESG policy which may be consulted on www.imgp.com.

For the purpose of attaining environmental or social characteristics promoted by the Fund, the portfolio will invest at least 50% of its net assets into UCITS that promote environmental and social characteristics according to article 8 of SFDR or have sustainable investment as their objective according to article 9 of SFDR. More information on the environmental and/or social characteristics promoted by the Fund may be found on Appendix B to the Prospectus.

To allocate the exposure on the various categories of asset classes and build up a global conservative portfolio, the Sub-Manager uses, in particular, macro-economic cycle analysis, asset valuation and risk and correlation analysis. Fundamental top-down analysis will evolve through time. It may include paying attention to, without being limited to, global yield curves, markets valuations, profits cycle analysis, earnings expectations, credit spreads, investor sentiment and other factors. The Fund is actively managed and subject to ongoing monitoring to ensure that risk parameters and market exposures consistent with investment views are maintained.

The Fund may invest up to 10% of its net assets in eligible instruments providing an exposure to gold and other precious metals.

The Fund may also invest in exchange traded financial derivative instruments (including options and futures) in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Fund may also conduct over-the counter-transactions on CDS, as described in greater detail in section 14.2. "Risk factors of the Funds", including CDS on indices and sub-indices, in compliance with the requirements of the Law. In this respect it may act both as a buyer of protection and as a seller of protection. Exposure to CDS and CDS on indices shall not exceed 10% of the net assets of the Fund

This class will distribute a quarterly dividend. Its amount and how it will be distributed will be determined by the Board of Directors. Investors attention is drawn to the fact that dividends may be paid from the capital or net assets.

Recommendation : this Sub-fund may not be appropriate for investors who plan to withdraw their money in less than 3 years.

The share class is denominated in another currency than the base of the Fund. The exchange rate risk of this class is hedged against the base currency of the Fund. However, full hedging cannot be guaranteed.

Risk and reward profile

The Synthetic Risk & Reward Indicator (SRRI) is assigned due to the past or expected share class price variations resulting from its currency and the nature of the Fund's investments and strategy.

The SRRI is based on historical data and may not be a valid indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time.

The lowest risk category is not assimilated to a risk-free investment.

The Fund does not offer capital guarantee or asset protection measures.

The Fund may be exposed to the following risks which are not satisfactorily captured by the SRRI and may negatively impact its assets:

Investments in other UCI / UCITS risk: A Fund which invests in other collective investment schemes will not have an active role in the day-to-day management of the collective investment schemes in which it invests. Moreover, a Fund will generally not have the opportunity to evaluate the specific investments made by any underlying collective investment schemes before they are made. Accordingly, the returns of a Fund will primarily depend on the performance of these unrelated underlying fund managers and could be substantially adversely affected by the unfavorable performance.

Risk linked to the use of derivative instruments : The Fund uses derivative instruments, which means financial instruments whose value depends on those of an underlying asset. Therefore, fluctuations in the price of an underlying asset, even if minor, could lead to significant variations in the price of the corresponding derivative instrument. With the use of over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

Interest Rate risk: By definition, interest rate risk corresponds to the possibility for an investment fund to be negatively impacted by a change in interest rates. The interest rate risk can thus manifest itself through a reduction in financial income in the event of a fall in interest rates and/or an increase in financial expenses in the event of a rise in interest rates.

Currency risk : The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Derivative for hedging purpose: The use of derivatives for hedging in a rising market may restrict potential gains.

For further information about the risks associated to this Fund, please see the full prospectus, available at the head office of the SICAV.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	1.00%
The percentage shown is the maximum amount that can be paid out of your investment. Your financial advisor or distributor can inform you of the associated entry and exit charges.	
Charges taken from the Fund over a year	
Ongoing charges	0.59%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower.

The indicated ongoing charges are an estimate based on the expected total amount of charges. This percentage may vary from year to year. It excludes performance fee and transaction costs, except in the case of an entry/exit charge paid by the Fund when buying/selling units in another collective investment.

For more information about charges, please refer to the Fund's Prospectus, section entitled "Charges and Expenses", available at www.imgp.com.

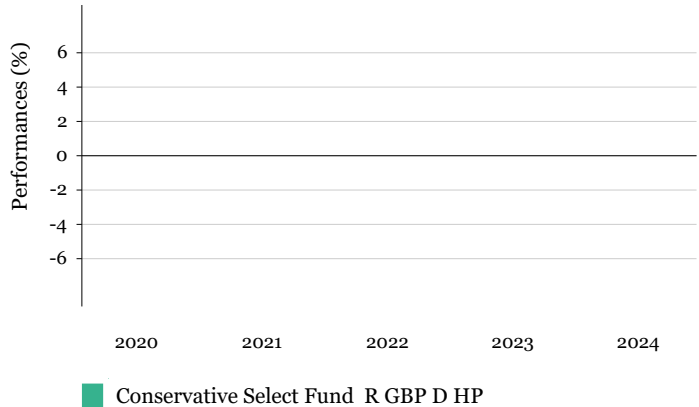

Past performance

Information on past performance will be provided after the close of the first financial year.

The performance figures shown in the bar chart are not a reliable indication of future performance.

There is insufficient data to provide a useful indication of past performance to investors.

Fund creation date: 9 January 2024
Share class launch date: 18 January 2024
Base currency: Pound Sterling
