Objectives and investment policy

The objective of this Sub-fund is to provide its investors with a long-term appreciation of their capital, principally by means of a diversified portfolio of investments in equity securities and other similar instruments of issuers that the Sub-Manager believes have significantly more appreciation potential than downside risk over the long term. The Sub-fund may invest flexibly with no geographical limitation, including Emerging Markets. Equity securities and other similar instruments in which the Sub-fund may invest include, but are not limited to, common and preferred stock of companies of all size and sector. The Sub-fund may also invest in convertible securities. The Sub-fund will typically invest in less than 50 securities but may exceed this number depending on market conditions.

The Sub-Manager selection process is designed to identify investments that are undervalued and offer predictable earnings, cash flow and / or book value growth.

When selling securities, the Sub-Manager considers the same factors it uses in evaluating a security for purchase and generally sells securities that it believes no longer have sufficient upside potential.

The Sub-fund promotes environmental and social characteristics according to article 8 of the SFDR but does not have sustainable investment as its objective.

The Sub-Manager believes that Environmental, Social and Governance (ESG) consideration allows for long-term value creation, allowing to foster a positive change. The Management Company has adopted for this purpose an ESG policy which may be consulted on www.imgp.com.

The Sub-fund shall not invest more than:

- 50% of its net assets in American Depositary Receipts ("ADRs" are US tradable certificates that represent the ownership of shares of a non-US company);

- 35% of its net assets in securities of emerging market issuers;

- 30% of its net assets in securities of issuers located in a single country, excluding the US.

The MSCI ACWI Value Net Total Return Index is used, in the appropriate currency of a given Share Class of the Sub-fund, for comparison only, including for performance comparison. The Sub-fund is actively managed and the Sub-Manager's discretionary powers are not constrained by any index. Although the Sub-Manager may take into consideration the index composition, the Sub-fund may bear little resemblance to the index.

The Sub-fund may hold cash, including term deposits, US treasuries, treasury Bills and money market instruments on an ancillary basis.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.
