

Key Investor Information Document

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Euro Select Fund (the "Fund"), Share class : C EUR (LU2985305460) is a sub-fund of iMGP (the "SICAV") managed by iM Global Partner Asset Management S.A. (the "Management Company")

Objectives and investment policy

The objective of this Sub-fund is to provide its investors with long term capital growth, principally by means of investments at all times for at least 75% of the Sub-fund's assets in equities or similar instruments issued by companies based in a member state of the European Monetary Union (EMU). It can also be exposed up to 10% to equities issued by companies having their registered office in other European countries, or having a predominant proportion of their assets or interests in Europe, or operating predominantly in or from this geographical area.

The Sub-fund promotes environmental and social characteristics according to article 8 of the Regulation (EU) 2019/2088 but does not have sustainable investment as its objective.

The Sub-Manager believes that Environmental, Social and Governance (ESG) consideration allows for long-term value creation, allowing to foster a positive change. The Management Company has adopted for this purpose an ESG policy which may be consulted on www.imgp.com.

More information on the environmental and/or social characteristics promoted by the Sub-fund may be found on Appendix B to the Prospectus.

The MSCI EMU Net Return Index is used, in the appropriate currency of a given Share Class of the Fund, for comparison only, including for performance comparison. The Fund is actively managed and the Sub-Manager's discretionary powers are not constrained by the index. Although the Sub-Manager may take into consideration the index composition, the Sub-fund may bear little resemblance to the index.

In order to achieve its investment objective, the Sub-fund will base its investments on fundamental research in the selection of individual securities for long positions. The allocation will be reviewed frequently in light of discussions the Sub-Manager may have with the management of companies in which it invests or is considering for investment. The policy of the Sub-fund is to maintain a portfolio of equities across a range of Eurozone countries and sectors, subject to the investment restrictions set out in this Prospectus.

more than:

- 10% of its net assets in units of UCITS and/or other UCIs
- 10% of its net assets in REITs
- 50% of its net assets in shares of small and medium companies.

The Sub-fund may also invest in derivative financial instruments in order to manage its portfolio efficiently and to protect its assets and liabilities.

The Sub-fund is eligible for the PEA. The Sub-fund is also eligible for the partial tax exemption under GITA; to that purpose, it complies with the specific investment restrictions described in Section 13.

In order to enhance its overall performance, the Sub-fund participates, on a continuous basis unless otherwise decided by the Management Company, in Securities Lending operations for an expected proportion of 0% to 30% of its assets, subject to a maximum of 40%.

Profits are not distributed but are accumulated by the Sub-fund.

Recommendation: This Sub-fund may not be appropriate for investors who plan to withdraw their money in less than 5 years.

Risk and reward profile

The Synthetic Risk & Reward Indicator (SRRRI) is assigned due to the past or expected share class price variations resulting from its currency and the nature of the Fund's investments and strategy.

The SRRRI is based on historical data and may not be a valid indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time.

The lowest risk category is not assimilated to a risk-free investment.

The Fund does not offer capital guarantee or asset protection measures.

The Fund may be exposed to the following risks which are not satisfactorily captured by the SRRRI and may negatively impact its assets:

Small Capitalisation : The Fund invests significantly in smaller companies which can carry a higher risk because their prices may be subject to higher market fluctuations than those of larger companies.

Investments in other UCI / UCITS risk: A Fund which invests in other collective investment schemes will not have an active role in the day-to-day management of the collective investment schemes in which it invests. Moreover, a Fund will generally not have the opportunity to evaluate the specific investments made by any underlying collective investment schemes before they are made. Accordingly, the returns of a Fund will primarily depend on the performance of these unrelated underlying fund managers and could be substantially adversely affected by the unfavorable performance.

Risk linked to the use of derivative instruments : The Fund uses derivative instruments, which means financial instruments whose value depends on those of an underlying asset. Therefore, fluctuations in the price of an underlying asset, even if minor, could lead to significant variations in the price of the corresponding derivative instrument. With the use of over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

Derivative for hedging purpose: The use of derivatives for hedging in a rising market may restrict potential gains.

Concentration risk : To the extent that the Fund's investments are concentrated in a particular country, market, industry or asset class, the Fund may be susceptible to loss due to adverse occurrences affecting that country, market, industry or asset class.

For further information about the risks associated to this Fund, please see the full prospectus, available at the head office of the SICAV.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	1.00%
The percentage shown is the maximum amount that can be paid out of your investment. Your financial advisor or distributor can inform you of the associated entry and exit charges.	
Charges taken from the Fund over a year	
Ongoing charges	2.27%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower.

The indicated ongoing charges are an estimate based on the expected total amount of charges. This percentage may vary from year to year. It excludes performance fee and transaction costs, except in the case of an entry/exit charge paid by the Fund when buying/selling units in another collective investment.

For more information about charges, please refer to the Fund's Prospectus, section entitled "Charges and Expenses", available at www.imgp.com.

Past performance

Information on past performance will be provided after the close of the first financial year.

The performance figures shown in the bar chart are not a reliable indication of future performance.

There is insufficient data to provide a useful indication of past performance to investors.

Fund creation date: 6 December 2024

Share class launch date: 20 February 2025

Base currency: Euro
