General information

The net asset value per share of each sub-fund, the issue, redemption and conversion prices are published on each valuation date at the registered office of the Company in Luxembourg.

The financial year starts on 1 January each year and ends on 31 December of the same year.

The Company publishes a detailed annual report on its activities and the management of its assets, which includes its financial statements expressed in USD, the detailed breakdown of assets for each sub-fund, and the audit report.

In addition, the Company publishes an unaudited semi-annual report after the end of each half-year.

The Shareholders' Annual General Meeting is held every year at the Company's registered office, or in any other location in Luxembourg as specified on the convening notice.

The Shareholders' Annual General Meeting is held on the third Thursday in April at 3 p.m., or if this day is a public holiday, on the following bank business day.

Notice of all General Meetings is sent by post to all registered shareholders at the address mentioned on the shareholders' register, at least eight days prior to the General Meeting.

This notice will indicate the time and place of the General Meeting and the admission conditions, the agenda and requirements under Luxembourg law regarding the necessary quorum and majority. Notices may also be published in the case of the Grand Duchy of Luxembourg and Switzerland in the "RESA" and in a Luxembourg newspaper (the Luxemburger Wort), and on the website www.fundinfo.com respectively as well as in the press or in any other media selected by the Board of Directors, respectively the Management Company, in the countries in which the Fund is marketed, and on www.fundsquare.net. Requirements regarding participation, quorum and majority at all General Meetings are those set out in articles 67 and 67-1 (as amended) of the law dated 10th August 1915 relating to commercial companies, and in the Company's Articles of Association.

Any notices to shareholders are published on the websites: www.fundinfo.com and www.fundsquare.net.

1 - General information

iMGP, the SICAV is an open-ended investment company with variable capital (société d'investissement à capital variable, hereinafter referred to as the "SICAV") governed by Luxembourg law, established for an unlimited time period on 2 August 1996, in accordance with the provisions of the Law of 17 December 2010 Part I (hereinafter referred to as "the Law") and of the Law of 10th August 1915 relating to commercial companies, as amended.

The SICAV is subject in particular to the provisions outlined in Part I of the Law, relating to undertakings for collective investment in transferable securities (UCITS) as defined in the Directive of the European Parliament and Council dated 13 July 2009 (2009/65/EEC, hereinafter referred to as the "Directive"), as amended.

Its Articles of Association were initially published in the Companies and Associations section of the "Mémorial" (official state gazette) on 30 August 1996. They were amended on 22 August 2012 and published in the "Recueil électronique des sociétés et associations" ("RESA") on 18 September 2012.

The SICAV is registered with the Luxembourg Trade and Companies Registry under number B-55740.

The SICAV was established in the form of an umbrella-type fund and is made up of several sub-funds, each representing a set of specific commitments and assets and corresponding to a distinct investment policy.

As at 30 June 2023, the following active sub-funds were open for subscription and redemption:

2 - Principal accounting policies

2.1 - Presentation of the financial statements

The SICAV's financial statements are prepared in accordance with the requirements in force in Luxembourg relating to undertakings for collective investments.

The financial statements have been presented on the basis of the Net Asset Value of 30 June 2023 calculated on 3 July 2023 except for the sub-fund iMGP - BM Alternativos calculated on 5 July 2023.

2.2 - Portfolio valuation

Transferable securities admitted to an official Exchange listing or traded on another regulated market are valued on the basis of the last available price in Luxembourg on the valuation day. If these securities are traded on several markets, the main market's last available price will be applied. Transferable securities not admitted to an official Exchange listing or not traded on another regulated market, and transferable securities admitted to official Exchange listing or traded on another regulated market, for which the last known price is not representative, are valued based on a prudent, good faith estimate of the probable sale value by the Board of Directors.

2.3 - Net realised profits or losses on sales of investments

Realised profits or losses on the sale of investments for each sub-fund are calculated on the basis of the average cost of the investments sold.

2.4 - Foreign currency translation

Bank assets, other net assets and the valuation of investments expressed in currencies other than that of the sub-fund are converted into that currency at the exchange rate in force at 30 June 2023.

Income and costs expressed in currencies other than the sub-fund currency are converted into that currency at the exchange rate in force on the transaction date.

The acquisition cost of investments by each sub-fund denominated in currencies other than that of the sub-fund is converted into this currency at the rate in force on the day of purchase.

Exchange gains and losses resulting from such conversions are recorded in the statement of operations and changes in net assets.

The exchange rates used for the valuation of the net asset value as at 30 June 2023 were as follows:

| | | |
|-----------------------|----------------------|----------------------|
| 1 USD = 1.50229 AUD | 1 USD = 1.32328 CAD | 1 USD = 0.89464 CHF |

2.5 - Combined financial statements

The combined statement of the SICAV's net assets and the combined statement of changes in net assets which are expressed in USD are the sum of the statement of net assets, the statement of changes in net assets of each sub-fund converted into the currency of the SICAV using exchange rates prevailing at the closing date.

The opening net assets are kept at the exchange rate in force at the closing date of the previous year. The resulting currency differences are included in the combined statement of operations and changes in net assets under "Revaluation of opening consolidated NAV".

The combined statement of net assets and the combined statement of changes in net assets for the financial period ended 30 June 2023 have not been adjusted to exclude the impact of the foregoing cross-investments.

The combined Net Asset Value excluding the amount of investments in the sub-funds referred to above amounts to USD 1,557,497,970.69.

As at 30 June 2023, the following sub-funds were invested in other sub-funds of the SICAV as set out hereunder:

2.6 - Valuation of options contracts

Options are valued at the last known price on the valuation date.

Options are a type of derivatives. Its price is intrinsically linked to the price of an underlying asset. Purchasing an option grants the right but not the obligation to buy or sell an underlying asset at a set price on or before a certain date.

For the details of outstanding options, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

2.7 - Valuation of forward foreign exchange contracts

Currency profits or losses resulting from non-matured currency forward foreign exchange contracts are determined on the basis of the currency forward foreign exchange rates applicable on the valuation date and recorded in the statement of changes in net assets.

For the details of outstanding forward foreign exchange contracts, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

2.8 - Valuation of futures contracts

Gains or losses resulting from non-matured futures contracts are determined on the basis of the latest price known for contracts on the valuation date and recorded in the combined statement of changes in net assets.

For the details of outstanding financial futures, if any, please refer to the section "Notes to the financial statements - Schedule of derivative instruments".

2.9 - Valuation of Contracts for Difference ("CFD")

CFD are valued at fair value based respectively on the last known spread curve, rates curve and last known closing price of the underlying asset. A "contract for difference" (CFD) is a contract executed between two parties to exchange, upon closure of the contract, the difference between the opening and closing price of the underlying share multiplied by the number of shares specified in the contract.

In evaluating CFDs, a "reset" is carried out (recognition of CFDs at opening price) when calculating NAV at the end of each month. Unrealised gains and losses are recognised in the accounts as net gains or losses on CFDs.

2.10 - Valuation of swaps

Credit Default Swaps, Interest Rate Swaps are valued at fair value based respectively on the last known spread curve, rates curve and last known closing price of the underlying asset.

Swaps are derivative instruments that represent an agreement between two parties to exchange a series of cash flows over a specific period of time. A total return swap gives an investor the benefits of owning a security without actual ownership. A credit default swap offers insurance in case of default by a third-party borrower.

2.11 - Dividend and interest income

Dividends are recognised as income on the date when the shares are listed 'ex-dividend' for the first time. Interest is calculated daily.

2.12 - Securities lending

Each portfolio may lend securities included in its portfolio to a borrower. To guarantee this transaction, the Company receives collateral. Securities on loan are delivered to a third counterparty broker, the assets of which continue to be valued as part of the portfolio of the relevant sub-fund. Upon termination of a loan, the relevant sub-fund is required to return to the borrower the posted collateral. Loans are subject to termination by the relevant sub-fund or the borrower at any time.

Securities lending income is recognized on a cash basis and recorded in the statement of operations and changes in net assets under the heading "Securities lending income".

2.13 - Distribution of costs and expenses

Expenses and costs attributable to a particular share class and/or a particular sub-fund will be allocated directly. Other expenses and costs not directly attributable to a particular share class and/or a particular sub-fund will be allocated equally to the various classes within the various sub-funds and/or to the various sub-funds.

If the amount of expenses and costs so requires, they will be allocated to the share classes and/or sub-funds on a pro-rata basis in terms of their respective net assets.

2.14 - Transaction fees

For the period ending June 30, 2023, the sub-funds sustained transaction costs (brokerage costs) in connection with the sale or purchase of transferable securities, money market instruments, derivatives or other eligible assets. The transaction costs are expensed and shown apart in Statement of operations and changes in net assets under section "Transaction fees".

2.15 - Investments paid in advance

Advance payments for purchases of investment funds that are not effective until 30 June 2022 are presented as "Advance on purchased securities".

2.16 - Prepaid investments

Subscriptions received that are not effective until after the year end are presented as advance subscriptions.

2.17 - Abbreviations used in securities portfolios

A: Annual

Q: Quarterly

S: Semi-annual

M: Monthly

XX: Perpetual Bonds

3 - Management fees and Management Company fees

a) Management fees :

On 17 November 2006, the SICAV entered into an agreement for an unlimited period with iM Global Partner Asset Management S.A. (the Manager) to manage the sub-funds' assets, while remaining under the permanent control of the SICAV's Board of Directors.

At the end of every quarter, the SICAV pays iM Global Partner Asset Management S.A. a management fee as remuneration for its services, at the annual rates described hereafter and applied to the average Net Asset Value of each share class. A percentage of this management fee is paid to the various Sub-Managers as remuneration for their respective services.

The rates indicated are those in force for the shares that were active during the period.

b) Specific fee for management of the foreign exchange risk of the Class HA and HP shares

By way of remuneration for the services described for these Classes, the Class HA and HP Shares may pay, each separately, at the end of each quarter, a foreign exchange risk management fee at the maximum annual rate of 0.10% and applied to the average Net asset value per Share of each Class HA or HP Share. This fee shall be payable to the entity in charge of the management of the foreign exchange.

c) Management Company fee

The Management Company fee may amount up to 0.30% per annum of the Net asset value of all the Sub-funds taken together at the end of each month.

The Management Company fee aims at

- remunerating the Management Company on a monthly basis for the central administration services that it provides to the SICAV, including control services;
- remunerating the CACEIS Bank, Luxembourg Branch for its functions of Central Administration, Transfer Agent and Registrar;
- engaging marketing and advertising expenses.

d) Management fees of target funds

When a sub-fund acquires related target funds, a reduced management fee of maximum 0.25% (annual rate) is charged with respect to such funds. The following table summarises the annual rates of the management fees applied to the other collective investment undertakings invested in by iMGP sub-funds as at 30 June 2023:

As at June 30, 2023, no sub-funds of iMGP are subject to the Relative performance fees.

Share Class PR subject to outperforming its hurdle rate or benchmark index*

Share Classes PR of the Sub-funds concerned if any, will charge, each separately and at the end of the Financial year, a performance fee at a maximum rate, against the Outperformance Reference NAV that is during the first Performance Period of the relevant Class, the Net Asset Value at which the Class was issued, and thereafter, the latest Net Asset Value of the Class outperforming, if any, its associated hurdle rate or benchmark index* as appropriate and in respect of which a performance fee was charged. Outperformance is calculated for each Share Class on each Valuation date by comparing the performance of the relevant Net asset value per share, before performance fee and net of all costs, and of the performance of a referenced asset since the previous calculation of Net Asset Value. This referenced asset is estimated as the Outperformance Reference NAV multiplied by the number of shares in the Share Class as at the Outperformance Reference Date adjusted to (1) the amount of subscriptions, redemptions and paid dividends on the relevant Share Class since the Outperformance Reference Date and (2) the performance of the benchmark index or hurdle rate*. Adjustments to Outperformance Reference NAV referred to under (1) are calculated as follows : in case of a paid dividend on the relevant Share Class, the Outperformance Reference NAV is adjusted downwards by the amount of dividend paid by Share; in case of subscriptions and/or redemptions, the Outperformance Reference NAV for the following NAV Valuation date is the average of the current Outperformance Reference NAV and of the price of the Net Asset Value per Share for the relevant Share Class weighted respectively by the proportion of Shares before subscriptions and/or redemptions and of subscribed Shares.

In application of the ESMA Guidelines on performance fees (ESMA34-39-992) and Circular CSSF 20/764, it is requested to display the actual amount of performance fees charged by each relevant Share Class and the percentage of these fees based on the Share Class Net Asset Value ("NAV"). As at 30 June 2023 there is no Share Classes for which performance fees have been charged.

5 - Depositary fees

The SICAV pays the Depositary Bank an annual fee which varies between 0.005% and 0.10% of the Net Asset Value of each sub-fund. These fees are payable monthly and do not include transaction fees or fees of sub-custodians or similar agents. The Depositary Bank is also entitled to be reimbursed for reasonable expenses and disbursements that are not included in the expenses referred to hereunder.

6 - Subscription tax ("*Taxe d'abonnement*")

The SICAV is governed by Luxembourg tax laws.

Pursuant to the legislation and regulations currently in force, the SICAV is subject in Luxembourg to an annual tax of 0.05%, the subscription tax, payable quarterly and calculated on each of the SICAV sub-funds' net assets at the end of each quarter.

This tax is limited to 0.01% of the asset value for share classes reserved to institutional investors.

No additional tax is due on the assets held in units of other Ucits which are already subject to this tax in Luxembourg

7 - Other tax matters

In several European Union member states, undertakings for collective investments (UCIs) may file claims in order to recover taxes which are deemed to be unduly paid following tax regulation in force. The Management Company of the Fund has decided to file claims with the tax authorities of these member states to recover these amounts. These amounts receivable are booked in the caption Other assets of these financial statements.

10 - Swing pricing

The Management Company has implemented a protection mechanism intended to avoid performance dilution, with a trigger threshold, in order to protect the interests of Sub-funds' shareholders. Such protection mechanism is applicable to all the Sub-funds of the Fund.

The actual cost of purchasing or selling assets and investments for a given Sub-fund may deviate from the latest available price, as appropriate, in calculating its Net Asset Value due to liabilities from buying and selling prices of the underlying investments. These costs have an adverse effect on a Sub-fund value and are known as "dilution". Indeed, when there are significant subscriptions to or redemptions from the Sub-fund, the relevant Sub-manager must invest/disinvest the corresponding amounts, thus generating large transactions which may entail variable transaction charges depending on the asset types concerned. These charges are mainly taxes on certain markets and execution fees billed by brokers. They can be fixed amounts or variable in proportion to the volumes traded and/or take the form of the difference between the bid or ask prices for a financial instrument on the one hand and the valuation price on the other.

To mitigate the effects of dilution, the Board of Directors may, at its discretion, make a dilution adjustment to the Net Asset Value. The goal of the anti-dilution mechanism, also known as "swing pricing", is therefore to have these charges borne by the investors at the origin of the subscription/redemption transactions concerned and to protect other existing investors. As a general rule, the requirement to make a dilution adjustment will depend upon the volume of subscriptions or redemptions of Shares in the relevant Sub-fund. The Board of Directors may make a dilution adjustment if, in its opinion, the existing Shareholders (in case of subscriptions) or remaining Shareholders (in case of redemptions) might otherwise be adversely affected.

The Board of Directors has entrusted the Management Company with the implementation and execution of the anti-dilution mechanism. In practice, on a Net Asset Value calculation day, if the net amount of subscription and redemption orders from investors across all Share Classes of a Subfund exceeds a threshold that the Management Company has predetermined, expressed as a percentage of the Sub-fund's net assets (called the "trigger threshold"), the Net Asset Value may be adjusted upwards or downwards to take into account the readjustment costs attributable to the net subscription/redemption orders. In particular, the Net Asset Value of the relevant Sub-fund will be adjusted (upwards or downwards) to reflect the estimated bid/ask spread of the assets in which the Sub-fund invests, the estimated fiscal charges and/or dealing costs that the Sub-fund may incur.

In the case of net subscriptions, there could be an increase in the Net Asset Value, i.e. an increase in the purchase price for all investors subscribing or redeeming Shares on that Transaction Date.

In case of net redemptions, there could be a reduction in the Net Asset Value, i.e. a reduction in the selling price for all investors redeeming or subscribing Shares on that Transaction Date.

The Net Asset Value of each Share Class in the Sub-fund will be calculated separately. Still, any dilution adjustment will, in percentage terms, affect the Net Asset Value of each Share Class in an identical manner. The scope of this variation depends on the estimate made by the Management Company of the transaction charges applied to the types of assets concerned. The adjusted Net Asset Value is the only Net Asset Value communicated to Sub-funds' shareholders. In case of performance fees, these fees are calculated before applying the anti-dilution mechanism, making these fees immune to the impact of swing pricing. By the regulations, the Management Company does not notify shareholders of the trigger threshold and ensures that internal information channels are restricted to preserve the confidential nature of the information.

As this adjustment is linked to the net amount of the Sub-fund's subscription and redemption orders, it is not possible to predict with accuracy whether swing pricing will be applied at any given moment in the future or the frequency with which the Management Company will make such adjustments. The pricing adjustment will not exceed 2.5% of the Net Asset Value, except in exceptional circumstances, such as in the event of a substantial drop in liquidity. If this 2.5% limit is exceeded, the Management Company will inform the CSSF and advise shareholders by publishing the information on the Website.

During the period 2023, the following sub-funds had at least one swing pricing activation:

European Subordinated Bonds
European Corporate Bonds
Euro Fixed Income
US High Yield

All the swing price activations have impacted the share classes prices below the prospectus stated max limit.

11 - Other expenses

Other expenses are mainly composed of Research Payment Account Fee, Securities Lending ManCo fees, Legal fees, Audit fees, Tax filing, VAT and Marketing fees.

12 - Changes in the composition of securities portfolio

Statement of changes in the portfolios is available to shareholders, free of charge, upon request to the SICAV's registered office or the Swiss representative.
